

COVID-19 SCENARIOS & DECISION TREE

7/8/2020

CDC Recommendations

General Recommendations

If you have symptoms of general illness (congestion, runny nose, sore throat, body aches, fever, shortness of breath or trouble breathing, diarrhea, loss of the sense of taste or smell) or symptoms normally related to allergies, you may have COVID-19.

Perform the following:

- Stay home from work, self-isolate from friends and family.
- Call your health care provider, or the COVID-19 hotline for Intermountain or University of Utah to determine if you need to be tested. U of U Telehealth - 801-587-0712
IHC Connect Care app: www.intermountainhealthcare.org or 844-442-5224
- Let your employer know that you are sick, have received a COVID-19 test, and need to stay home until you have the results of the COVID-19 test and it is negative
